

SAVE THE DATE

2023 Celebration of Life Banquet

March 23, 2023

6:30 to 8:30 PM

KC Hall, Highland, IL

Meet the PROLIFE DOC

DR. WILLIAM LILE, D.O., FACOG

“A patient is a person,
no matter how small.”

Dr. William Lile

It's now possible to operate on babies while they are still in the womb. The umbilical cord of a baby can be transfused with donated blood as early as 18 weeks gestation to treat severe anemia in babies. The babies are patients and deserve legal protection like the rest of us.

All patients have rights. Pre-Born babies are patients, too! It is time to stand up and fight for the rights of the Pre-Born. “Speak up for those who cannot speak for themselves, for the rights of all who are destitute.” Proverbs 31:8

Dr. Lile has always had a passion for educating the church about the personhood of the unborn. His expertise in the medical field coupled with his bold faith has formed his entire career.

In 1999, Dr. William Lile and a partner bought out the practice of the largest provider of abortion services in Pensacola, Florida. Along with putting an immediate stop to abortion procedures and referrals at the clinic, Dr. Lile and his partner included a clause in the contract: the man who at one time had led the area in abortions had to agree to leave the region if he wanted to keep trafficking in abortion.

His passion for the unborn took on new life as he continued to get more involved in informing the church about the grim realities of abortion. That was the beginning of Dr. Lile's venture into what has become somewhat of a second career, providing education on abortion procedures for the pro-life and Christian communities through speaking appearances, as well as articles and videos, hosted online at ProLifeDoc.org.

PLAN NOW TO ATTEND AND MEET THE PROLIFE DOCTOR!
